

New Holstein Middle School Student Community Service Club

Community Service Verification Form

Membership in the New Holstein Middle School Student Community Service Club requires that students complete uncompensated community service work. Community service is intended to be service out in the community. Therefore, helping out a family member or someone who owns a private business is not considered a community service activity. Helping out a not-profit organization is acceptable. The community service work hours must be validated by having a representative of the work site complete this form. The student must then submit the form to Mrs. Compton, the club advisor.

Student's Name: _____
